*a delicious, full-flavoured
salad, drizzling & dipping oil*

New Hemisphere is a pioneering New Zealand company dedicated to producing high quality Hemp seed products. Hemega3 is a delicious, full-flavoured salad, drizzling and dipping oil. Extra virgin and cold pressed, it is the product of hemp seed grown and harvested on New Zealand's fertile Canterbury Plains. Hemega3 Hempseed Oil is known for its superb quality and delicate taste. In New Zealand and around the world, it is the oil that is the preferred choice of food writers, acclaimed chefs and fine cooks.

hemega3™ replenish

- Hemp Seed Oil and UMF® Manuka Honey
- Promotes the benefit of high EFAs in Hemp seed oil and the anti-bacterial & healing properties of high UMF manuka honey.
- The EFAs in Hemp seed oil include a natural balance of omega 3,6,9 and GLA, which are essential for healthy skin and help alleviate dryness and minor skin conditions.
- Hemp seed oil provides EFAs necessary for maintaining health and flexible skin cell membranes as well as exerting anti-viral, anti-fungal and anti-bacterial properties.

Something pure and natural in health and beauty has begun.
Come with us.

our unique ingredients

New Zealand Hemp Seed Oil has substantial nutritional value. The combination with its essential fatty acid (EFA) profile, makes it one of nature's best body care ingredients. The EFA's in hemp seed oil are a natural balance of omega 3, 6, 9 and gamma linolenic acid (GLA). These components are essential for healthy skin and help alleviate dryness and reverse skin conditions.

New Zealand's Manuka Honey has exceptional natural healing qualities. It has very beneficial antibacterial properties and has been known to diffuse deeper into the skin than other honeys. This is called UMF or Unique Manuka Factor and is the only international standard identifying the anti-bacterial strength of honey. UMF 10-15 is average, UMF 15-18 is best. The plus sign on hemega3™ replenish comes in only UMF 18+ for maximum benefit.

Other unique New Zealand ingredients also featured in hemega3™ replenish. **Houttuynia Cordata** is a medicinal plant that has been traditionally used as a product to increase natural healing. **Kawakawa Heart Pepper** is an antioxidant with anti-ageing properties. **Manuka Oil (Tea Tree)** is a natural antiseptic and is known to contain natural anti-bacterial properties essential to create a strong
